FREE & OPEN TO THE PUBLIC

Recent Supreme Court elections have shown that wealthy special interests aim to take control of the courts and bend justice to serve their purposes.

Hear Wisconsin Democracy Campaign’s Executive Director Mike McCabe as well as local panelists discuss and answer questions on important reforms that can be enacted this year, including UW-L’s own Dr. Joe Heim!

Sponsors: Wisconsin Democracy Campaign, UW-L Political Science Department, UW-L Progressives, and the UW-L Political Science and Public Administration Association

The **Judicial Independence Project** promotes fair and impartial courts in Wisconsin through research, education, alliance building and advocacy—with a primary focus on building awareness of growing special interest influence over state Supreme Court elections and how interest groups are operating outside current state disclosure laws and campaign finance limitations as they seek control over Wisconsin's highest court.
